SECTION 1: CRITICAL FIXES

FIX 1: DOUBLE BOTTOM NAV (MOBILE)

PROBLEM: Two nav bars visible — app nav + system nav overlap. FIX:

- Remove ANY duplicate nav bar
- Keep ONLY: Home, Search, My List, Downloads, Profile
- Single nav: fixed bottom, height 64px + env(safe-area-inset-bottom)
- Active: white icon + label. Inactive: #666666
- z-index: 50
- Add: padding-bottom: env(safe-area-inset-bottom)

```
.bottom-nav {  
  position: fixed;  
  bottom: 0;  
  left: 0;  
  right: 0;  
  height: 64px;  
  background: rgba(10, 10, 10, 0.95);  
  backdrop-filter: blur(20px);  
  border-top: 1px solid rgba(255, 255, 255, 0.05);  
  z-index: 50;  
  display: flex;  
  justify-content: space-around;  
  align-items: center;  
  padding-bottom: env(safe-area-inset-bottom);  
}
```

```

.bottom-nav-item {
  display: flex;
  flex-direction: column;
  align-items: center;
  gap: 4px;
  color: #666666;
  font-size: 10px;
}
.bottom-nav-item.active {
  color: #FFFFFF;
}
.bottom-nav-item svg {
  width: 24px;
  height: 24px;
}

```

FIX 2: SOURCE CARDS CUT OFF (MOBILE DETAIL)

PROBLEM: Source cards at bottom of detail page are hidden behind bottom nav. FIX:

- Add padding-bottom to main content container: pb-24 (96px minimum)
- Ensure content scrolls ABOVE nav, not behind
- Source cards must be fully visible with 16px margin from nav

```

.detail-page-content {
  padding-bottom: calc(64px + env(safe-area-inset-bottom) + 24px);
}

```

FIX 3: ARC/SEASON PILLS OVERFLOW (MOBILE EPISODES)

PROBLEM: Long arc names like “Dreams!, The Zenny Pirate Crew Sortie!, Beyond the Rainbow (13)” break layout. FIX:

- Max-width: 200px per pill
- Truncate with ellipsis
- Show full name on hover (tooltip)
- Or use 2-line clamp then ellipsis

```

.season-pill {
  display: inline-flex;
  align-items: center;
  padding: 8px 16px;
  border-radius: 9999px;
  border: 1px solid rgba(255,255,255,0.1);
  background: rgba(255,255,255,0.03);
  color: #AAAAAA;
  font-size: 13px;
  white-space: nowrap;
  overflow: hidden;
  text-overflow: ellipsis;
}

```

```

    max-width: 200px;
    cursor: pointer;
    transition: all 200ms;
}
.season-pill:hover {
    background: rgba(255,255,255,0.08);
    border-color: rgba(255,255,255,0.2);
}
.season-pill.active {
    background: #FFFFFF;
    color: #000000;
    border-color: #FFFFFF;
}

```

FIX 4: CATEGORY CARDS BLACK/EMPTY (DESKTOP BROWSE)

PROBLEM: “Browse by Type”, “Browse by Genre”, “Browse by Platform” cards show black boxes. FIX:

- Add fallback gradient backgrounds while images load
- Use skeleton shimmer animation
- Ensure images have proper src and onError fallback

```

.category-card {
    position: relative;
    aspect-ratio: 16/9;
    border-radius: 12px;
    overflow: hidden;
    background: linear-gradient(135deg, #1a1a1a 0%, #2a2a2a 100%);
}
.category-card-image {
    width: 100%;
    height: 100%;
    object-fit: cover;
}
.category-card-image.loading {
    background: linear-gradient(90deg, #1a1a1a 25%, #2a2a2a 50%, #1a1a1a 75%);
    background-size: 200% 100%;
    animation: shimmer 1.5s infinite;
}
@keyframes shimmer {
    0% { background-position: 200% 0; }
    100% { background-position: -200% 0; }
}
.category-card-overlay {
    position: absolute;
    inset: 0;
    background: linear-gradient(to top, rgba(0,0,0,0.8) 0%, transparent 60%);
    display: flex;
    align-items: flex-end;
    padding: 16px;
}

```

```
}
```

FIX 5: “MY LIST” TEXT CUT OFF (MOBILE DETAIL)

PROBLEM: Button shows “+ My Lis” instead of “+ My List”. FIX:

- Min-width: 120px
- Font-size: 14px on mobile
- Or use icon-only (bookmark icon) on screens < 375px

```
.btn-mylist {
  display: flex;
  align-items: center;
  justify-content: center;
  gap: 8px;
  min-width: 120px;
  height: 44px;
  padding: 0 16px;
  border-radius: 8px;
  background: rgba(255,255,255,0.1);
  color: #FFFFFF;
  font-size: 14px;
  font-weight: 500;
  border: 1px solid rgba(255,255,255,0.1);
}
@media (max-width: 375px) {
  .btn-mylist-text { display: none; }
  .btn-mylist { width: 44px; min-width: 44px; padding: 0; }
}
```

SECTION 2: CARD SIZE REDUCTION

FIX 6: SHRINK ALL CARDS

CURRENT: Too bulky, takes too much screen space. NEW SIZES:

```
/* Mobile cards */
.content-card {
  width: 140px; /* was 160px */
  border-radius: 8px;
  overflow: hidden;
  flex-shrink: 0;
}
.content-card img {
  width: 100%;
  aspect-ratio: 2/3;
  object-fit: cover;
}

/* Desktop cards */
```

```

@media (min-width: 1024px) {
  .content-card { width: 180px; } /* was 220px */
}

/* Top 10 cards - slightly larger for number visibility */
.top10-card {
  width: 160px; /* was 180px */
}
@media (min-width: 1024px) {
  .top10-card { width: 200px; } /* was 240px */
}

```

Card gap:

- Mobile: 12px (was 16px)
- Desktop: 16px (was 20px)

SECTION 3: CAROUSEL OVERHAUL

FIX 7: SNAP SCROLL WITH PEEK

PROBLEM: Carousels feel clunky, no snap, no peek of next card. FIX:

```

.carousel-container {
  display: flex;
  gap: 12px;
  overflow-x: auto;
  scroll-snap-type: x mandatory;
  scroll-behavior: smooth;
  -webkit-overflow-scrolling: touch;
  scrollbar-width: none;
  padding: 0 16px;
  padding-bottom: 8px; /* space for hover shadow */
}
.carousel-container::-webkit-scrollbar {
  display: none;
}
.carousel-container > * {
  scroll-snap-align: start;
}

/* Peek effect - show edge of next card */
.carousel-section {
  margin-right: -16px; /* bleed right */
}

```

For “Continue Watching” and rows:

- Show 2.5 cards on mobile (peek third)
- Show 5.5 cards on desktop (peek sixth)

- Snap to card start

SECTION 4: PROVIDERS → SINGLE BUTTON + BOTTOM SHEET

FIX 8: CLEAN PROVIDER DISPLAY

CURRENT: All provider logos scattered messily. NEW: Single button → opens bottom sheet modal.

```
// Detail page
<button className="btn-where-to-watch" onClick={() => setShowProviders(true)}>
  <PlayIcon /> Where to Watch
</button>

// Bottom Sheet Modal
{showProviders && (
  <div className="provider-sheet-overlay" onClick={() => setShowProviders(false)}>
    <div className="provider-sheet" onClick={e => e.stopPropagation()}>
      <div className="sheet-handle" /> {/* drag handle */}
      <h3>Where to Watch</h3>
      <div className="provider-grid">
        {providers.map(p => (
          <a key={p.name} href={p.url} className="provider-item">
            <img src={p.logo} alt={p.name} />
            <span>{p.name}</span>
          </a>
        ))}
      </div>
    </div>
  </div>
)}
```

```
.provider-sheet-overlay {
  position: fixed;
  inset: 0;
  background: rgba(0,0,0,0.7);
  z-index: 100;
  display: flex;
  align-items: flex-end;
}

  width: 100%;
  max-width: 600px;
  margin: 0 auto;

}

  to { transform: translateY(0); }
```

```

}

  width: 40px;
  height: 4px;
  background: #444;
  border-radius: 2px;
  margin: 0 auto 16px;
}
